

Zabbix Meeting Latvia 2023

INTEGRATIONS

Aleksandre Sebiskveradze
Integration team Project Manager

WHAT DO WE DO

- ✓ We research new technology, devices and sometimes even ideas
- ✓ We are trying to find new, better and sometimes just ideal way
- ✓ We implement our ideas in a code
- ✓ We run several session of reviews and QA's to much high-quality standards
- ✓ We provide ready to use "out of the box" integrations with Zabbix
- ✓ We share our finding and ideas with development team for new features

We are trying to make your experience with zabbix easier.

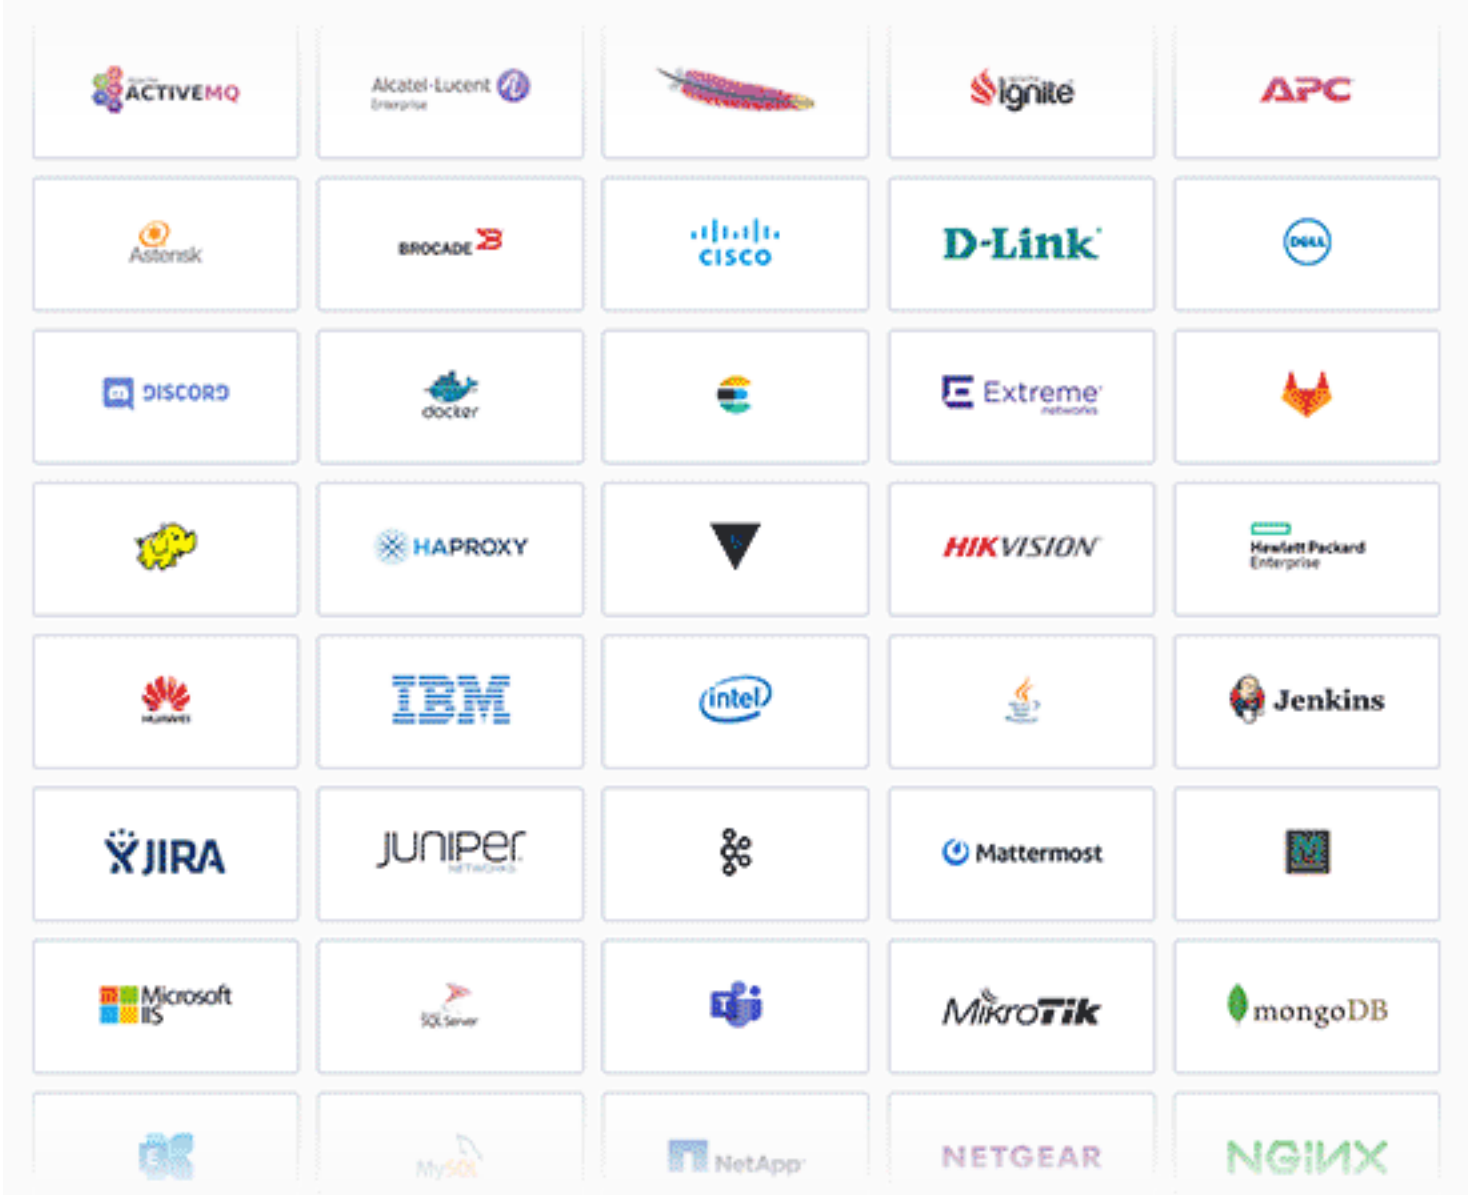

ZABBIX

A LITTLE BIT OF NUMBERS

During 2022 year we released 21 more integration from the scratch, including

- ✓ Cisco Meraki
- ✓ Amazon Web Services
- ✓ Azure Cloud Services

Now total number of official Zabbix Integration is more then 350 solutions Including 30+ webhooks

NEAREST PLANS

- ❖ Integration with **Control-M** (by BMC software)
- ❖ Integration with **VEEAM** (Backup & Replication)
- ❖ Integration with **Azure**: "Storage accounts"
- ❖ Integration with **GCP**: "Compute Engine (GCE)"

WHERE TO FIND INTEGRATIONS

- New Zabbix installations = everything is preinstalled and ready to use
- To find new integrations go to <https://www.zabbix.com/integrations>
- Else go to git.zabbix.com
- And of course, don't forget to check our community solutions at
github.com/zabbix/community-templates

IF THERE IS NO REQUIRED INTEGRATION

There are few options:

- Create a ZBXNEXT ticket at support.zabbix.com
- Ask your friends, colleagues and community to vote
- You can become a sponsor of integration
 - Please contact sales@zabbix.com
