

# Zabbix in Action: Proven Results Across Industries

Real-world success stories showcasing Zabbix's effectiveness in tackling critical business challenges.

**ZABBIX**  
PREMIUM PARTNER

INDUSTRY USE-CASE

# Managed Services Provider

An MSP managing a large XaaS platform looking to transform their monitoring strategy as well as innovate on next-generation automation solutions.

## Problem

- Provide a stable, highly performant XaaS Platform
- React to problems after instead of before
- Do more with less

## Challenges

- Extremely high software costs
- Set and forget sales experience
- Automation gap

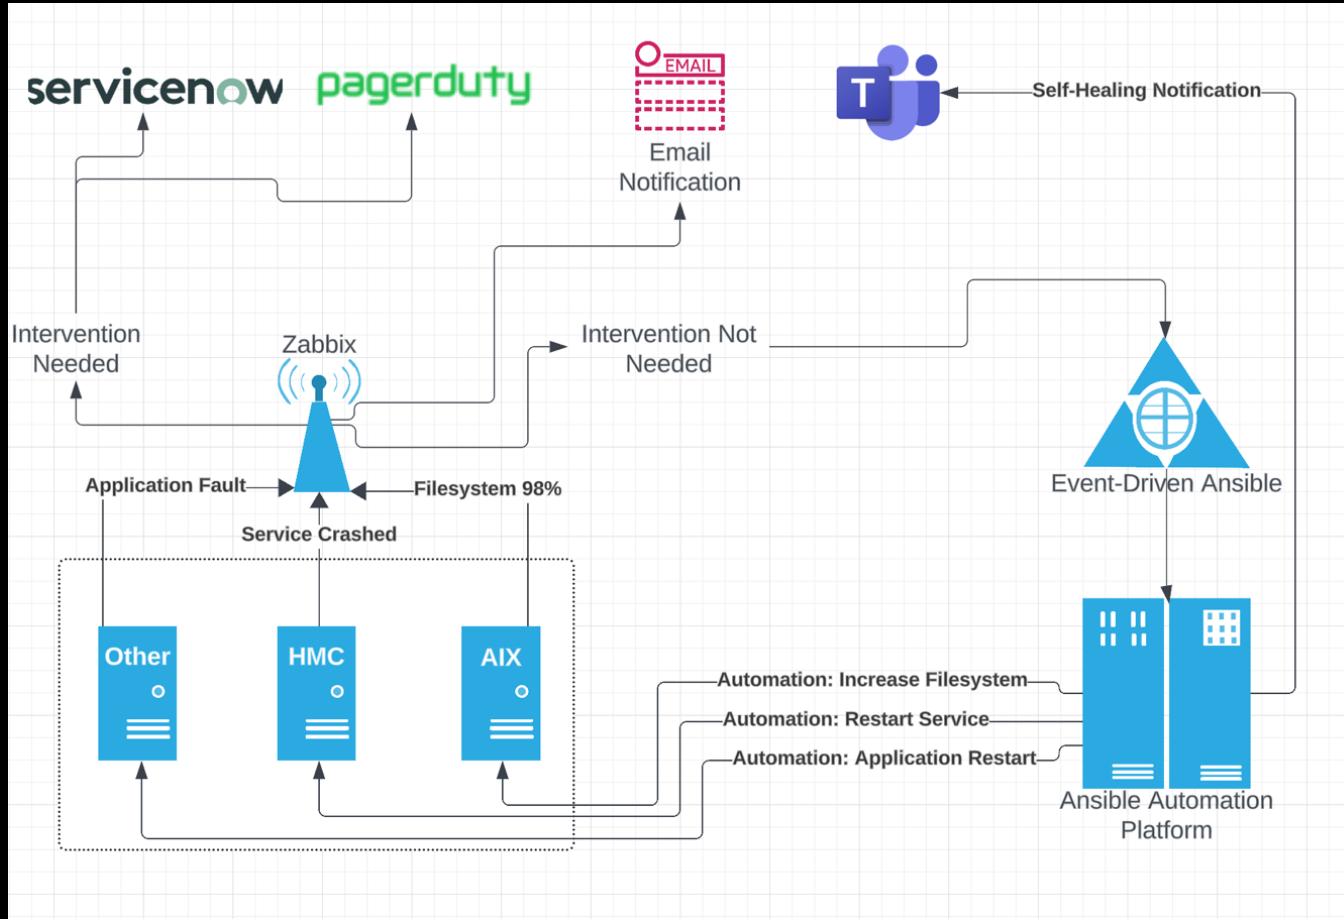

## Solution

- Hot/Cold architecture
- Integration with Ansible EDA
- Performance focused monitoring

## Outcome

- No software costs, allows higher services spend
- Automation Integration
- Actionable alerts

## Overview

# Useful Architecture

- Focus on intervention
- Ansible EDA
- Various outputs
- Workflow focused

OVERVIEW

# Why Event-Driven Ansible + Zabbix?

The Zabbix logo, consisting of the word "ZABBIX" in white uppercase letters on a red rectangular background.

- Free
- Flexible & Easy to Use
- GREAT Endpoint Support

- Transforming machine interaction
- Delivers incredible efficiency

TOGETHER

Best of both worlds

Using [Zabbix](#), [Ansible](#), and [EDA](#) together lets you monitor your systems, automate tasks based on real-time events, and ensure immediate responses to issues without manual intervention.
