Professional Technical Support services provided by
Zabbix team

Zabbix Monitoring software is a powerful solution to monitor
enterprise-class IT infrastructures, including servers, network devices,
virtual environments, printers, web resources, applications, and even
business processes and KPIs.

Technical support services provided by Zabbix company ensures that
customer gets a timely response to all of his inquiries about
installation and configuration of his Zabbix software, questions about
troubleshooting and fine tuning of customer's monitoring system.
Each technical support tier provides different set of services included.

ENTERPRISE Tier Contract

Annual Technical Support contract includes:
- Unlimited number of monitored devices and metrics
- Unlimited number of issues and consultations
- Unlimited number of Zabbix servers and Zabbix proxies
- Support availability - 24x7

Zabbix is an Universal Open Source
enterprise-level monitoring solution
