ZABBIX CLOUD

Vjacheslav Bogdanov, Zabbix

The Enterprise-class
Monitoring Solution for Everyone

ZABBIX

1.

HELLO

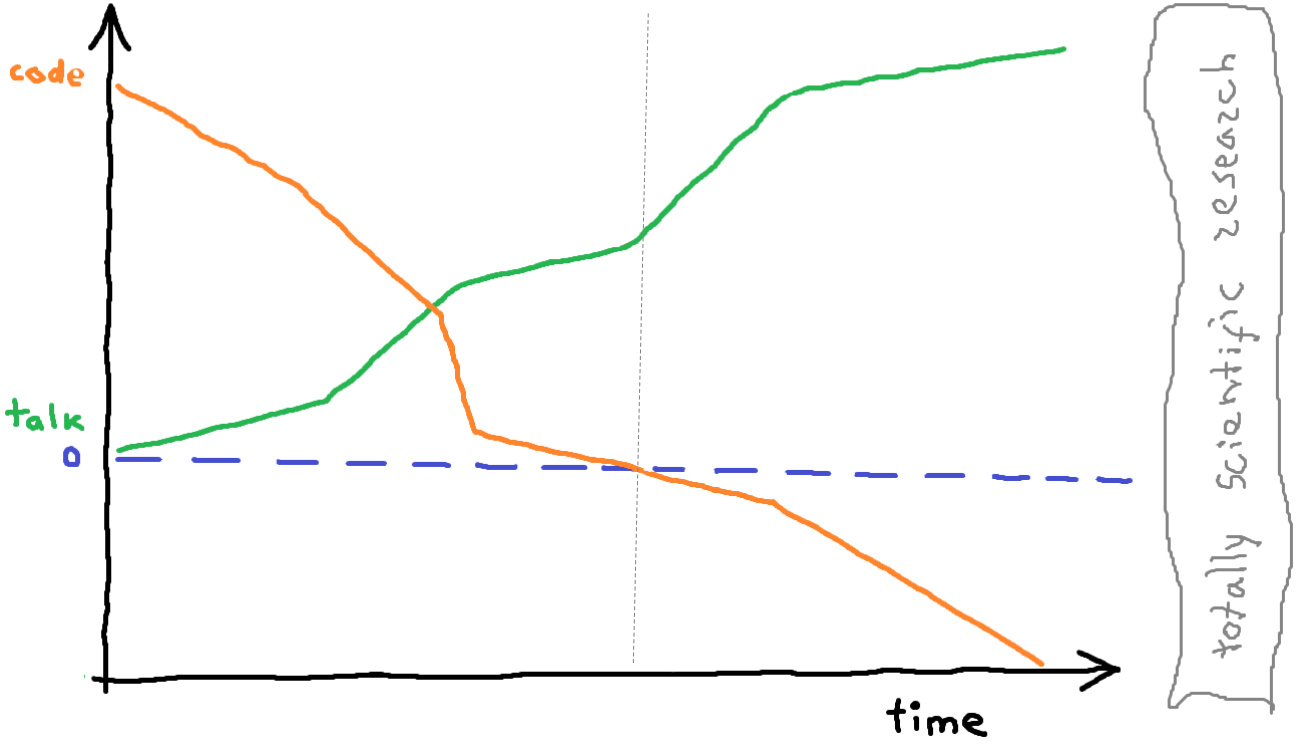
This is the section where I introduce myself and try to **prepare** you for the things you are about to hear

WHAT TO EXPECT?

- You may leave this presentation with more questions than you had before.

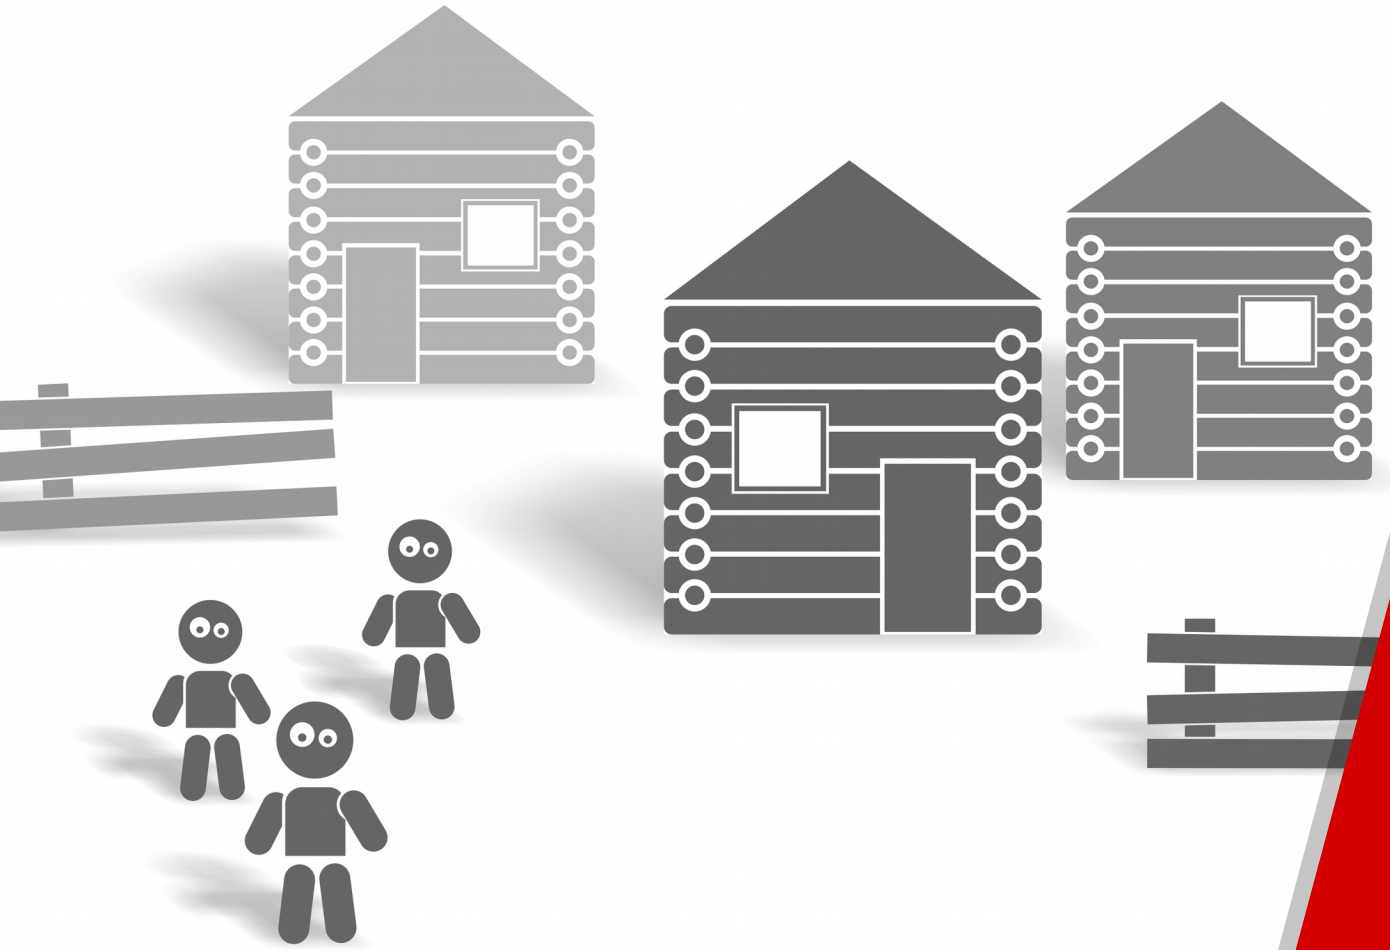
- You may be wondering why am I telling you this.

WHY ME?



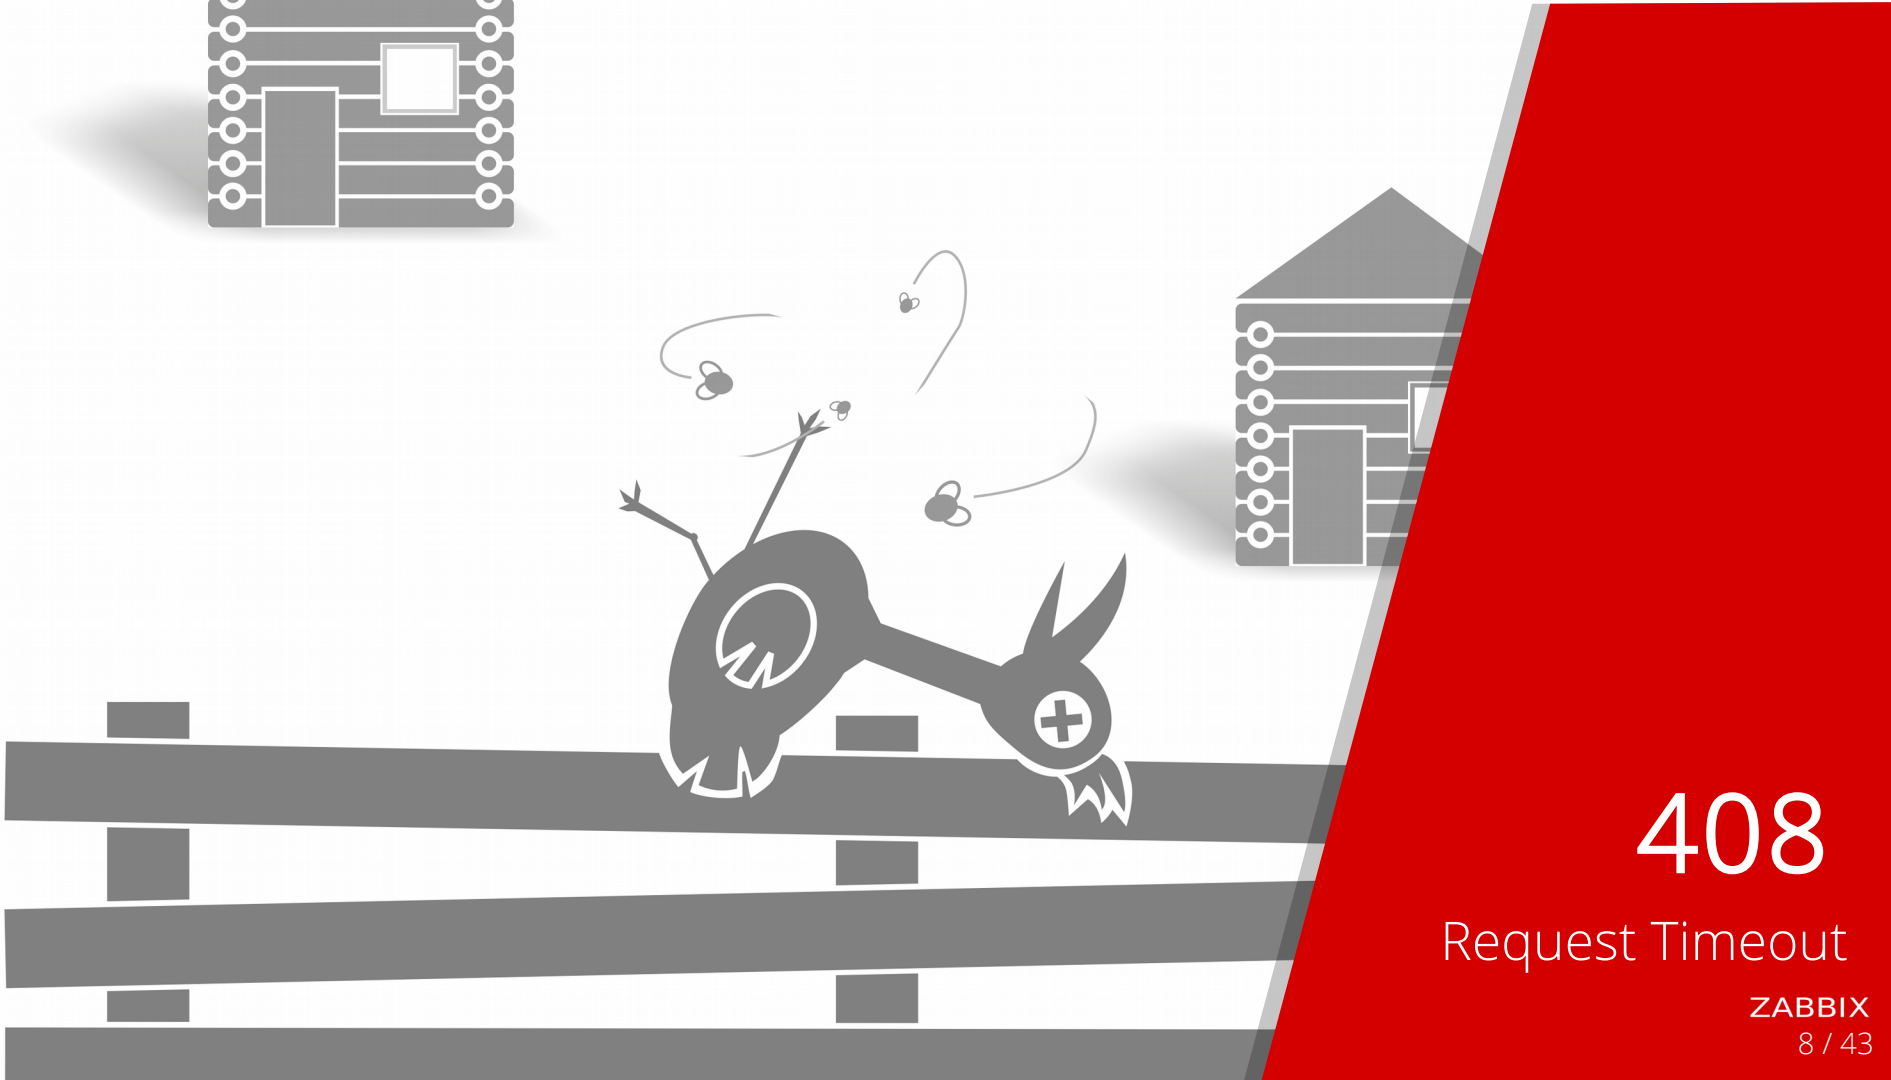
2.

USAGE



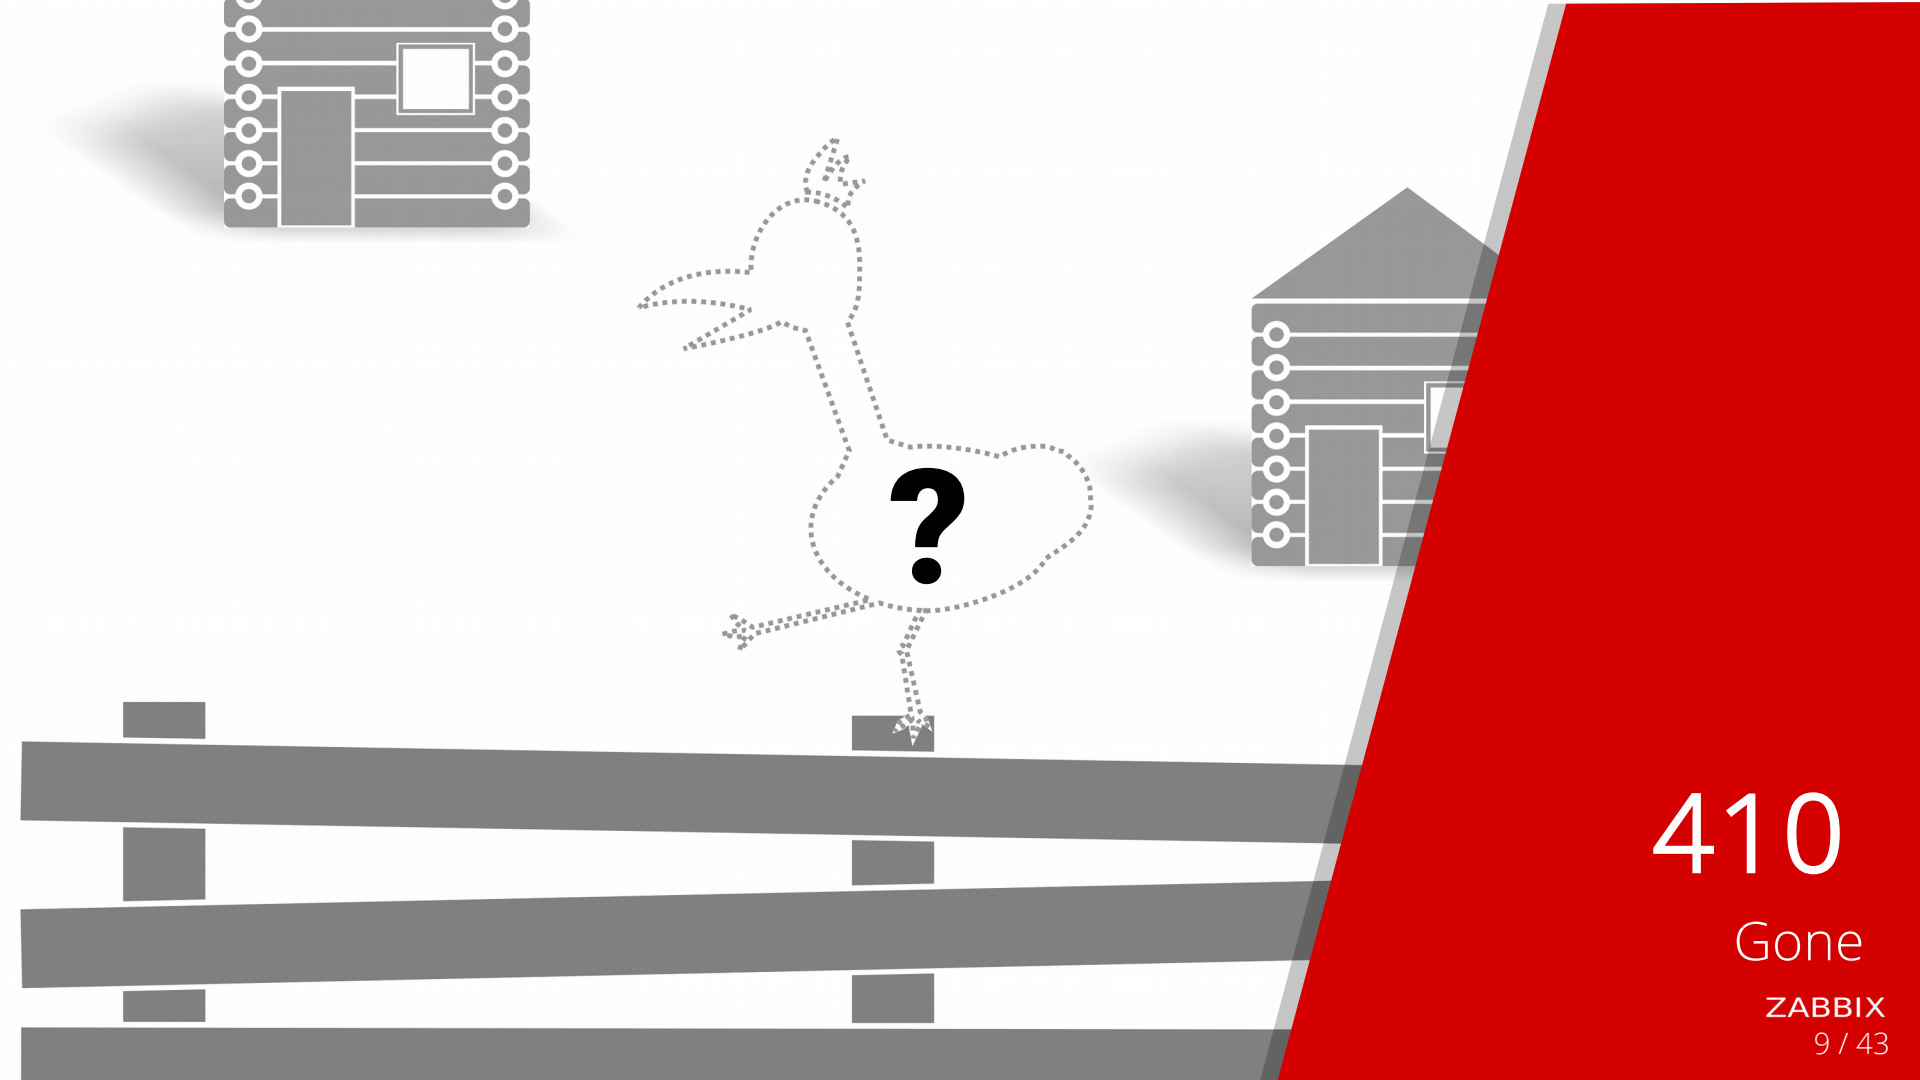
A long time ago...

...there was a service...



408

Request Timeout

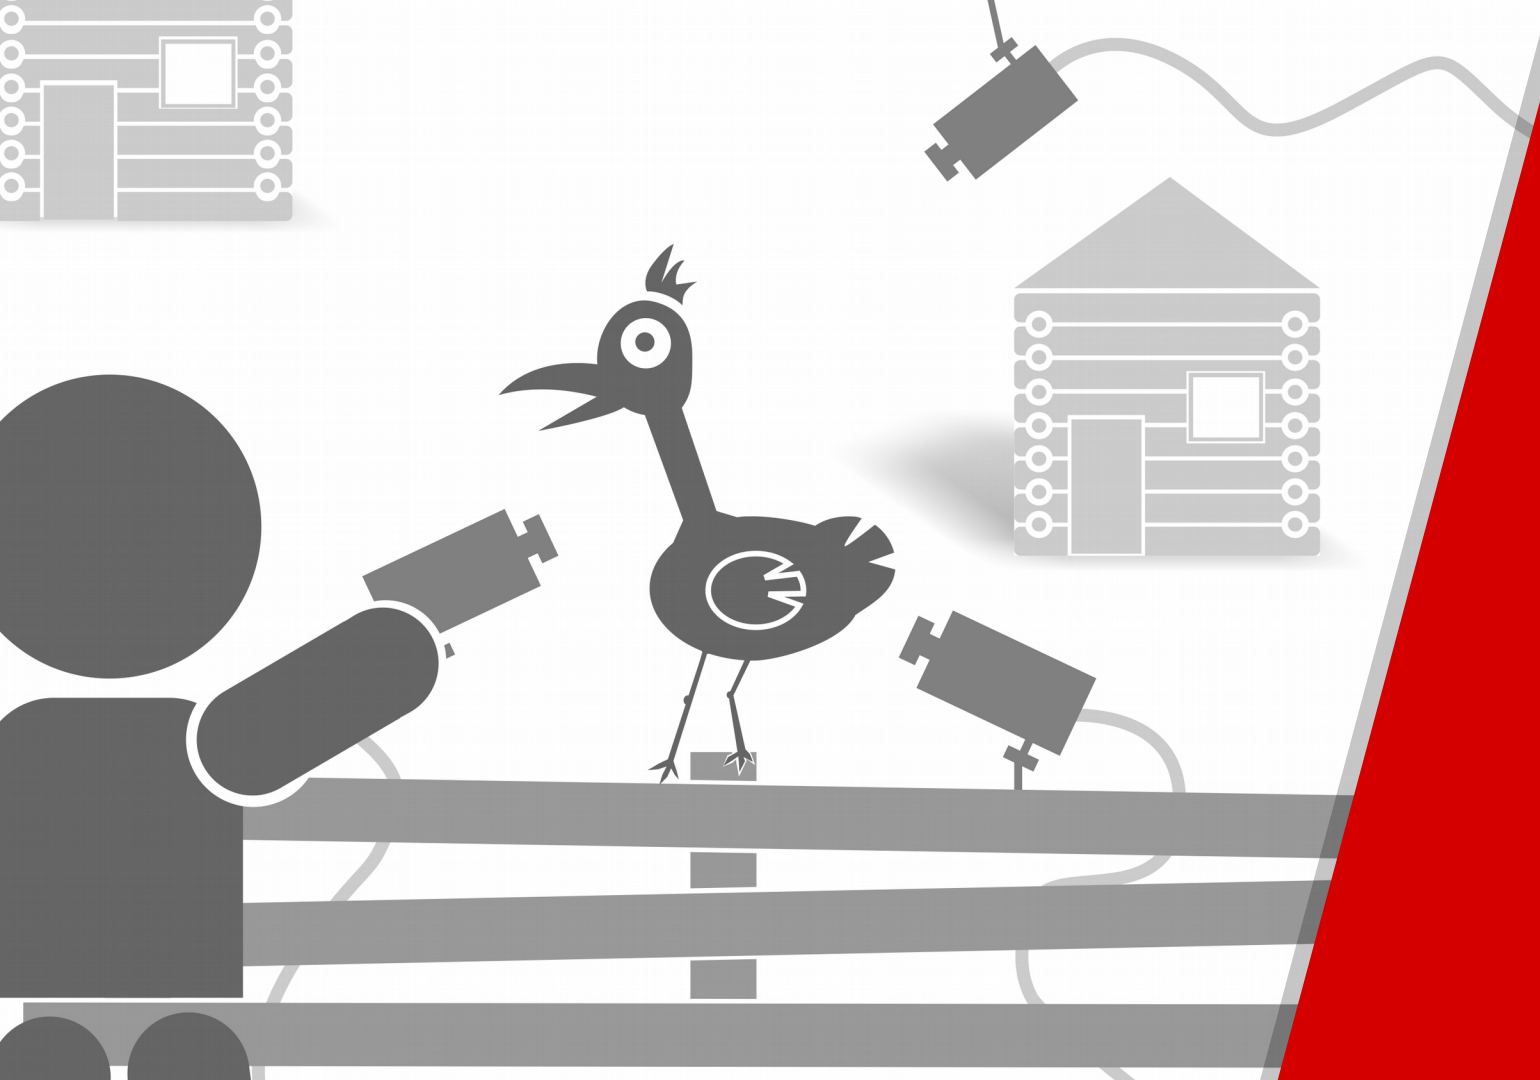


410

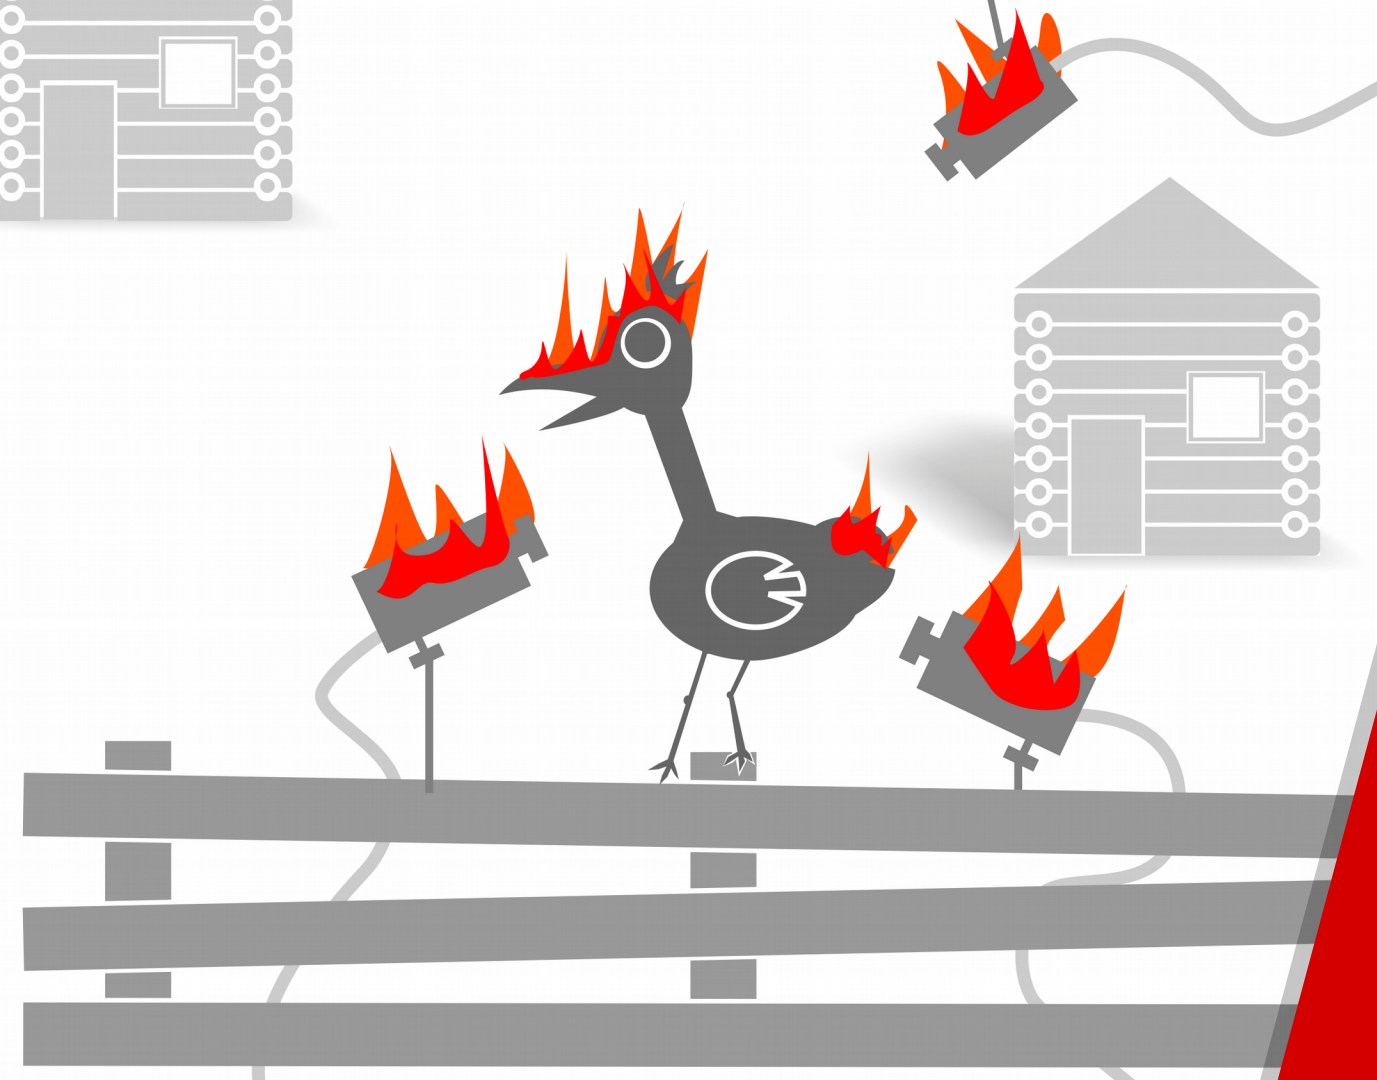
Gone

...and some side problems

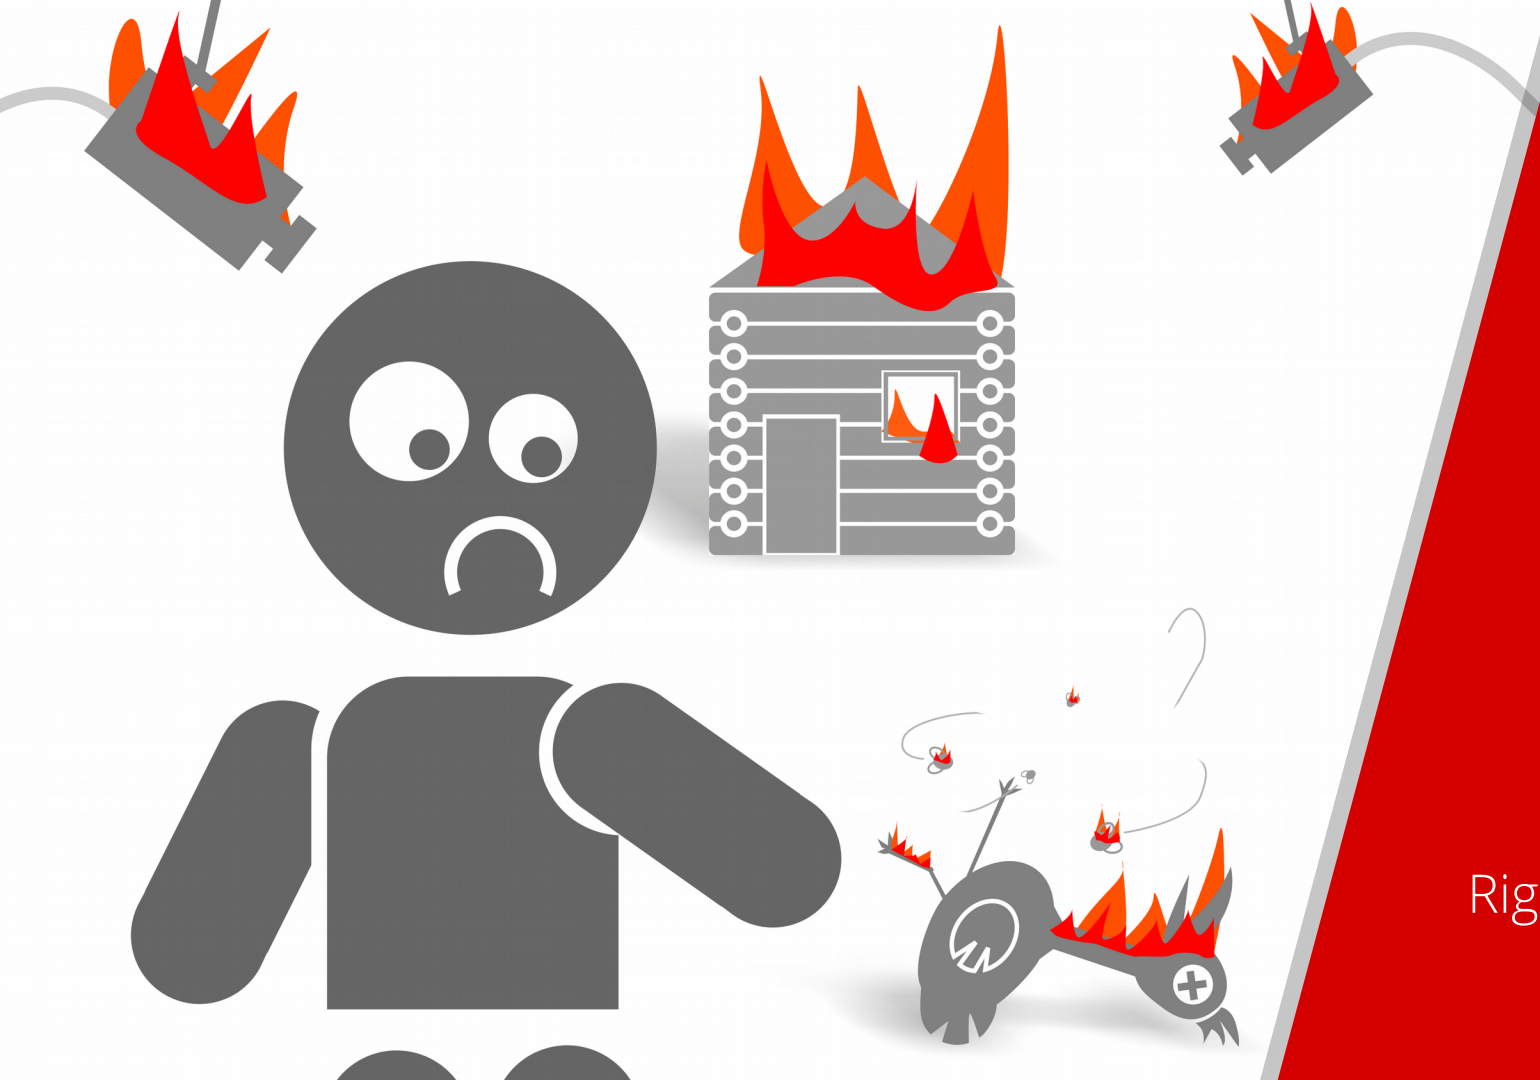
500
Internal Server Error



Monitoring

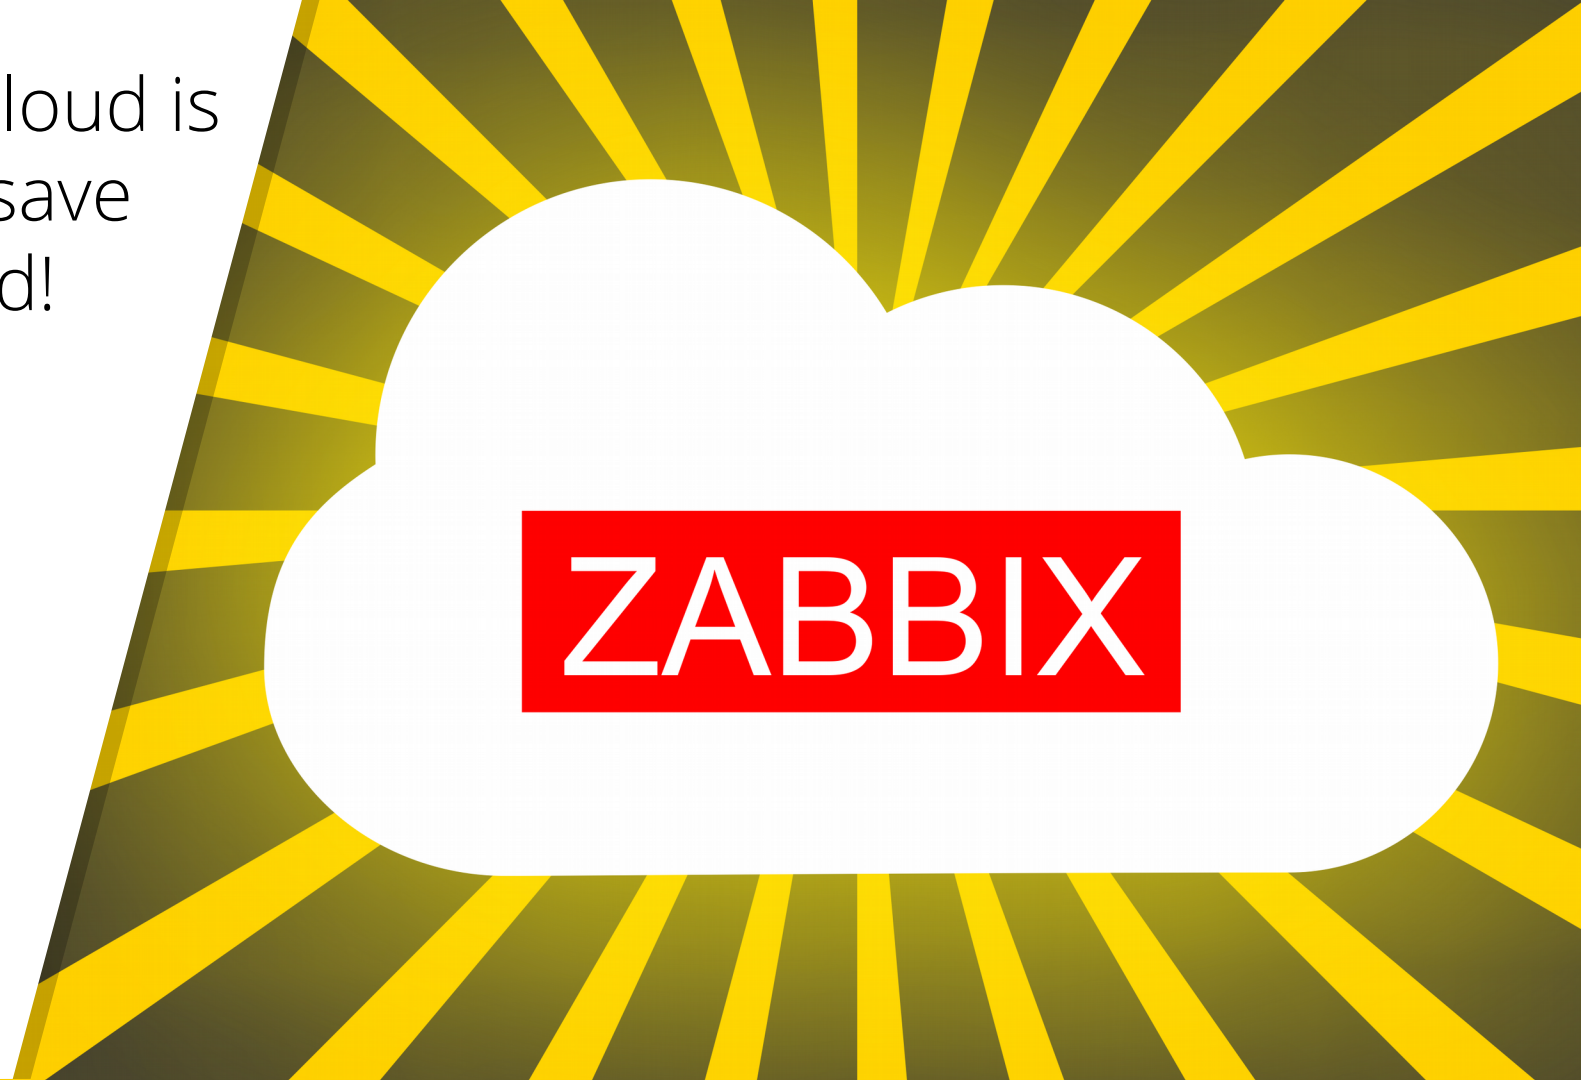


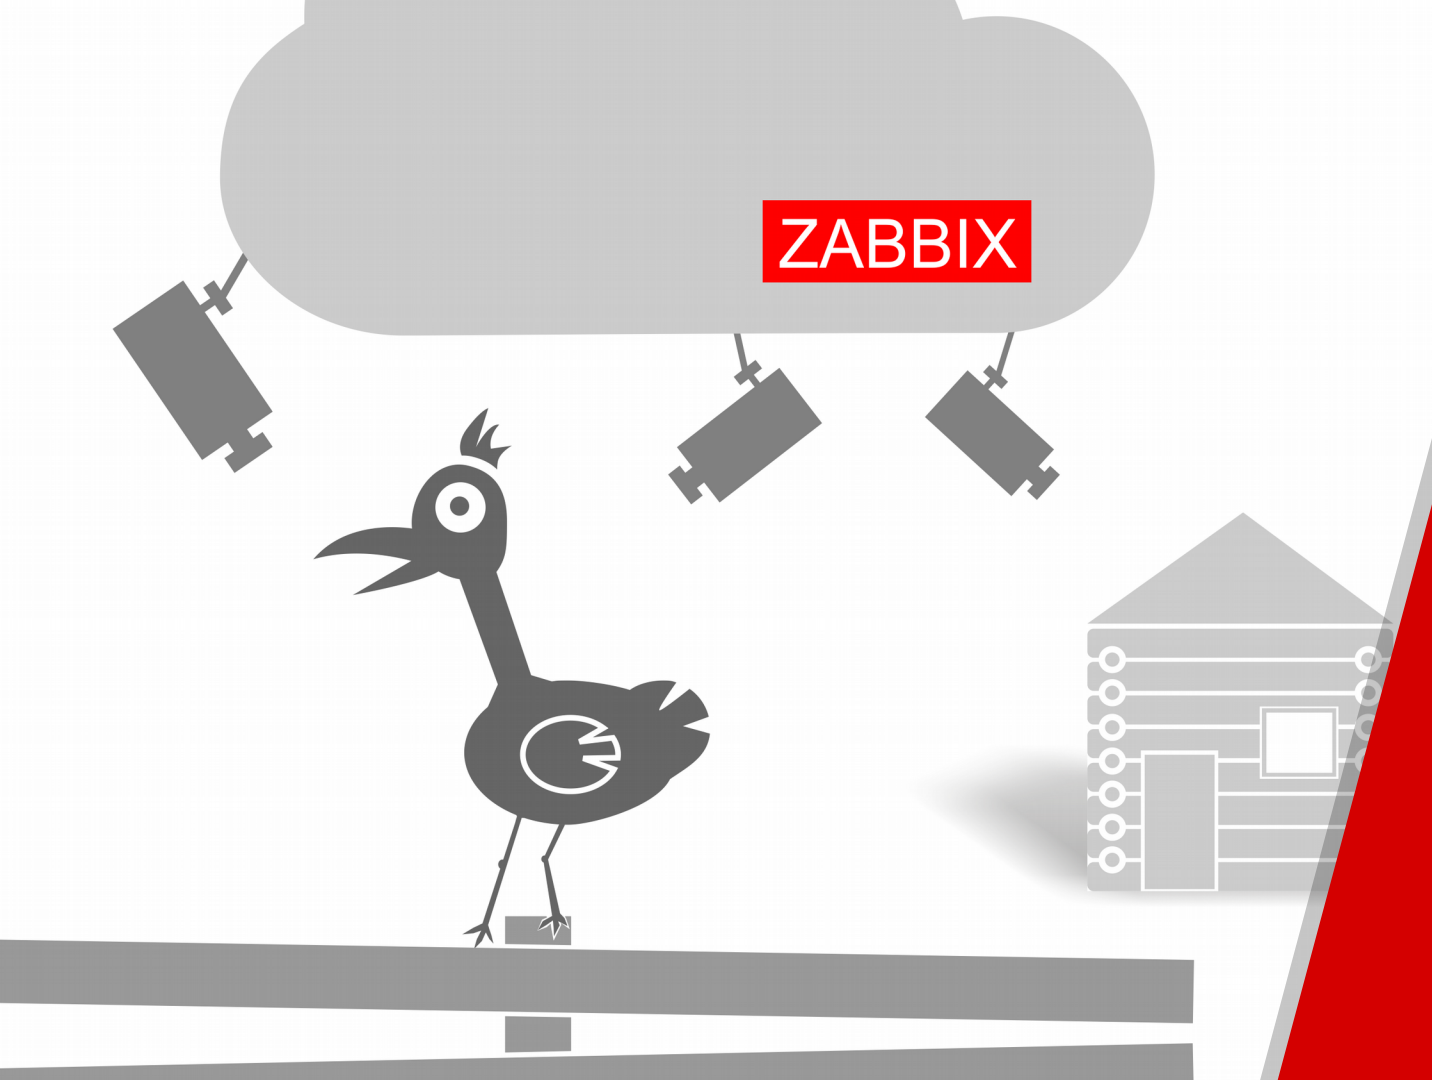
Who will monitor the monitoring solution?



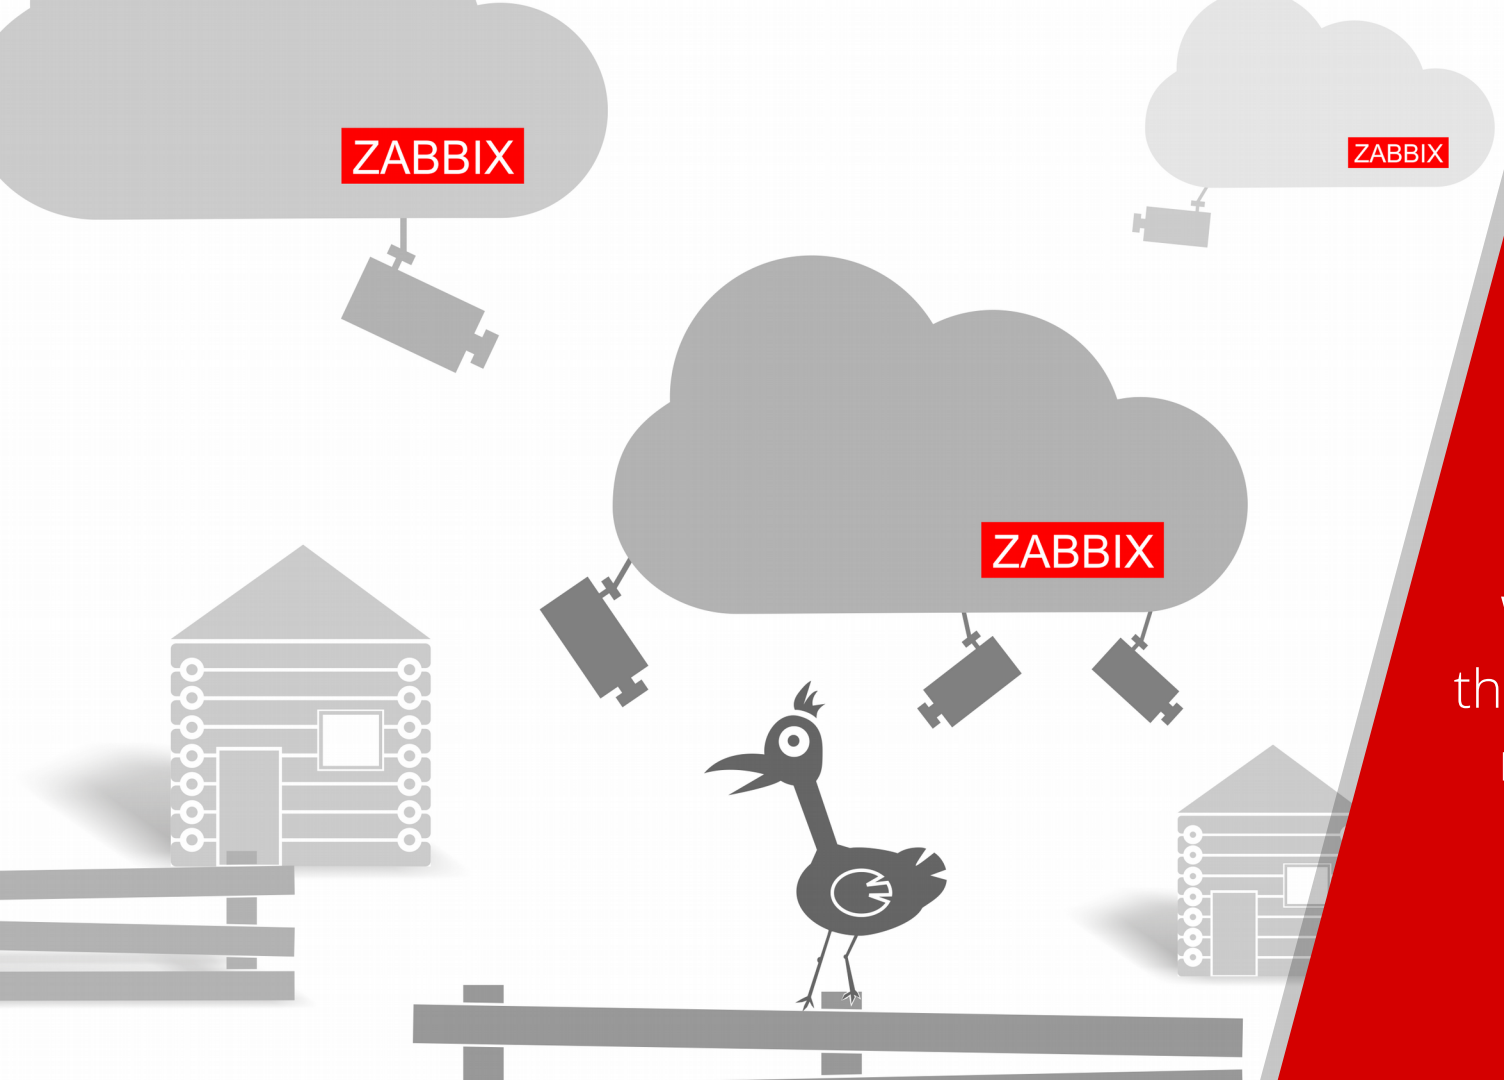
Right in the feels

Zabbix cloud is here to save the world!



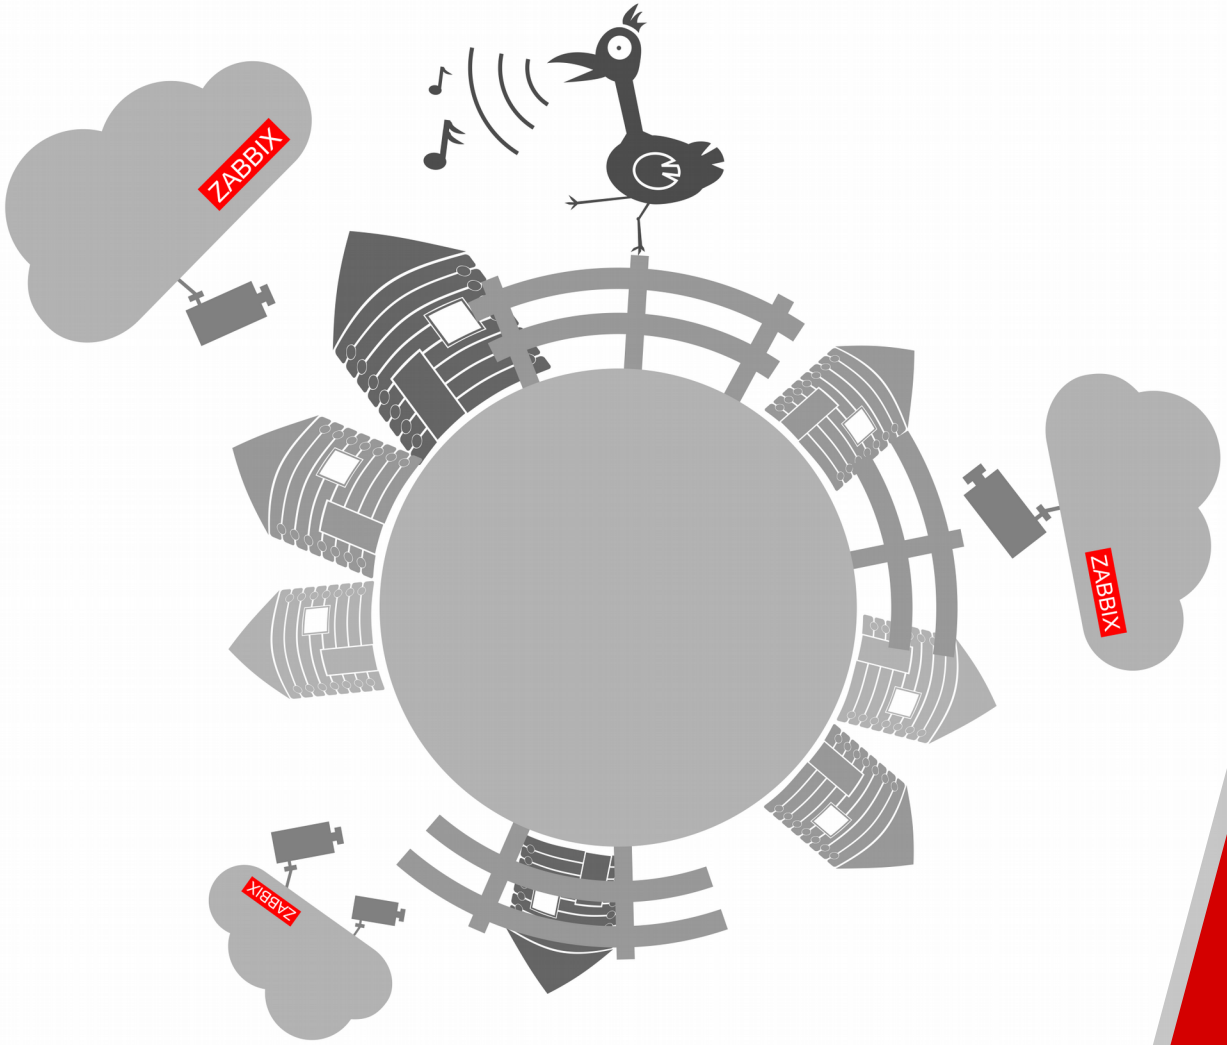


We will do the monitoring!



We will even do the monitoring of monitoring that monitors your monitoring!

(not really)



Service availability around the world

No need to worry anymore!

2.5

USAGE

(but a bit more serious)

This is the section where I try to use numbers and facts instead of fairy tales

REGIONS

USA

- N. Virginia
- Ohio
- N. California
- Oregon

Asia Pacific

- Tokyo
- Seoul
- Singapore
- Sydney
- Mumbai

EU

- Frankfurt
- Ireland
- London
- Paris

As well as **Canada** and **South America**

COMPONENTS

Zabbix Server
including Zabbix Frontend

Zabbix Proxy

SMALL

Monitoring solution for small business.

- Recommended for 100 NVPS
- 350 hosts
- 10 000 items
- History retention 1 month
- 2 proxies
- SLA 98%

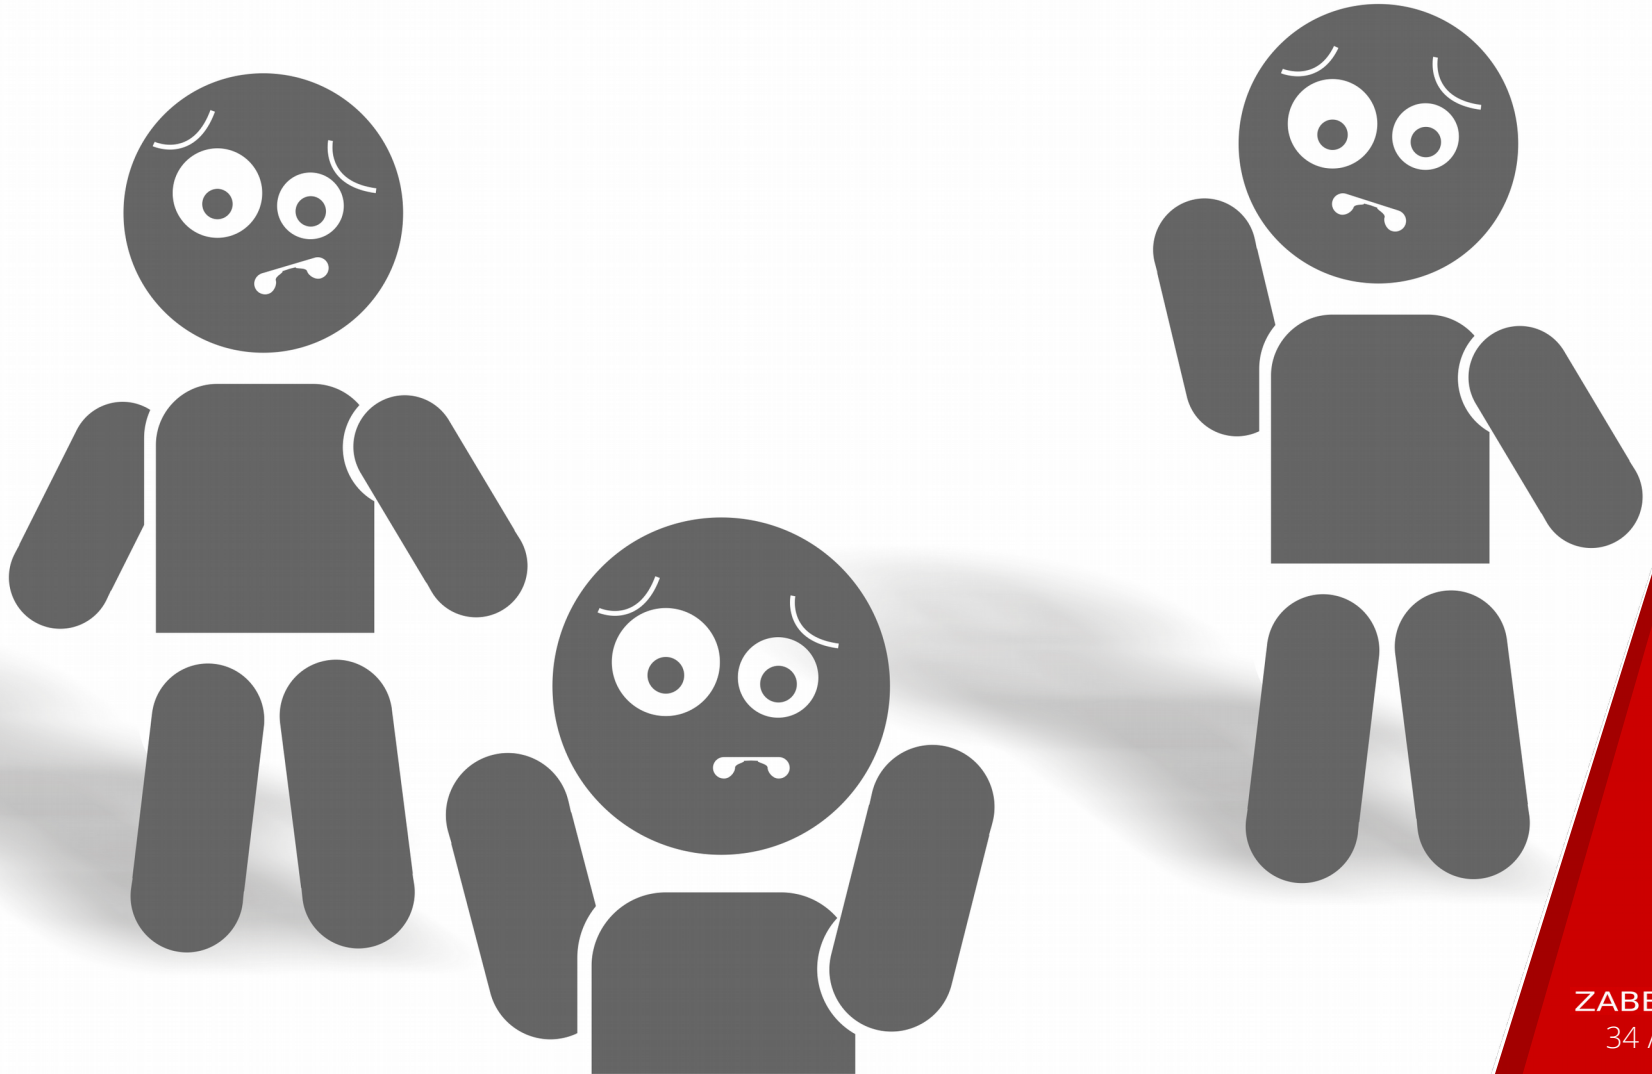
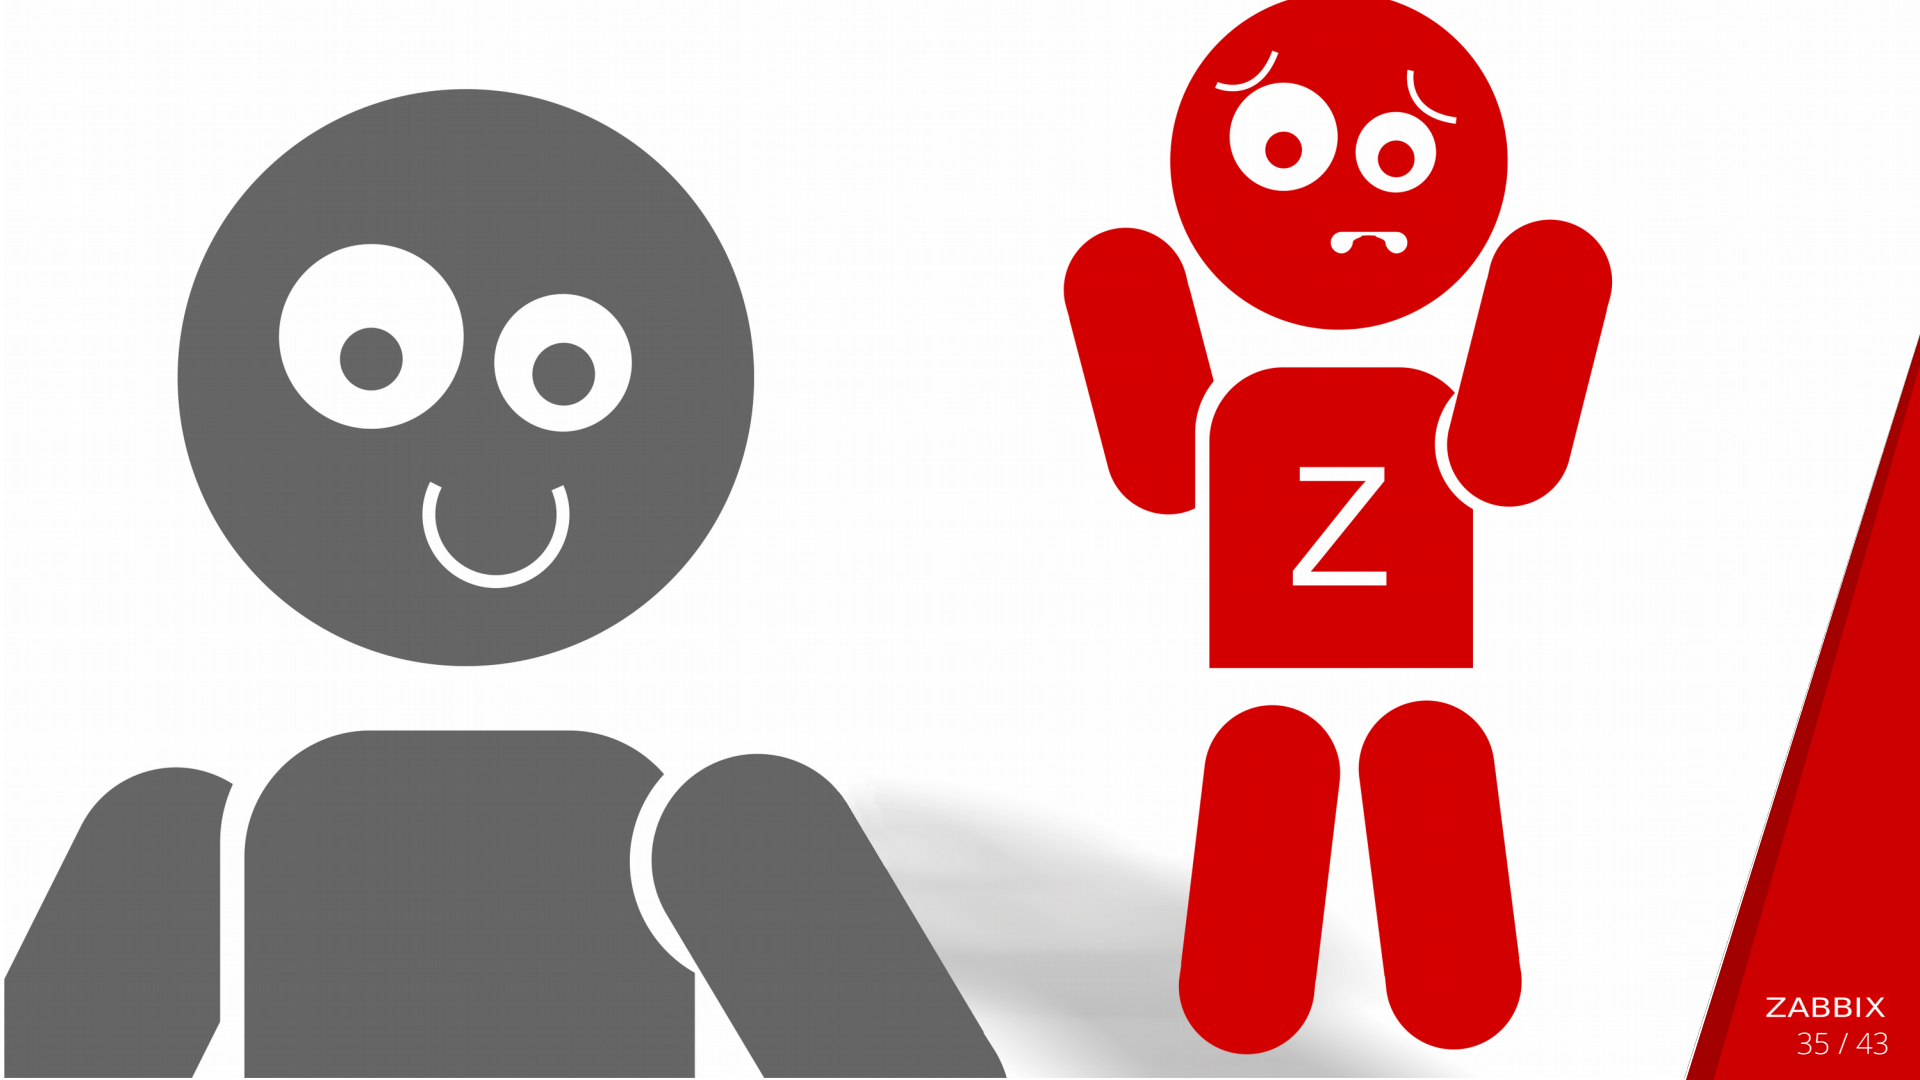
WHY WOULD I USE ZABBIX CLOUD IF I COULD JUST DEPLOY ZABBIX IN THE CLOUD ALL BY MYSELF?!

4.

ZABBIX

This is the section where I share my thoughts about philosophy of Zabbix





Z

5.

SUPPORT

Sometimes you just need someone to tell you:

“There, there. Everything's going to be fine.”

ZABBIX

Not a node related request

Description

And some other stuff too...

Could you please help me to decide which node type will fit my needs?

Here is a ascii art of my cat, maybe it will help on making decision:
