

## What's New

New Zabbix release candidates are out. Feel free to download and test Zabbix 4.0.14rc1, Zabbix 4.2.8rc1, and Zabbix 4.4.1rc1. Make sure that you have already explored [what's new in Zabbix 4.4](#).

Zabbix Blog is updated with case studies, and various technical posts, based on the #ZabbixSeries videos. [Read now](#).

## Zabbix Summit 2019: How it Was

It was an honor for us to meet Zabbix enthusiasts from 48 countries, gathered together by the idea of excellent monitoring.

We are always happy to welcome the Zabbix community in Riga, share our experience, and exchange ideas. We are so motivated now to make the 10th anniversary Zabbix Summit 2020 as great as we can.

Note that presentation slides and videos from the event are [already published](#). Pictures from the hall and parties will be available soon.

## Deploy Zabbix in the Cloud

Zabbix can be easily deployed as a container or as a ready to use image for various cloud providers: [AWS](#), [Azure](#), [Digital Ocean](#), [Docker](#). Watch the [full introduction](#) of the new possibilities, provided by Zabbix Business Development Director, Sergey Sorokin, during the Zabbix Summit 2019.

## Meet Zabbix

OPEN SOURCE  
MONITORING  
CONFERENCE

### Open Source Monitoring Conference 2019 (Nov 4-7)

The Open Source Monitoring Conference is the premier worldwide professional event focused on Open Source monitoring solutions. Dmitry Lambert, Senior Zabbix trainer, and a technical support engineer will provide a speech about on-board diagnostics monitoring and alerting with Zabbix.

### Red Hat Forum 2019 Warsaw

Red Hat Forum opens the latest and best technologies of cloud computing, platforms, containers, virtualization, middleware, and management of open source systems.

Alexey Petrov, senior Zabbix trainer and a technical support engineer will provide a speech about Zabbix as an effective monitoring tool for all IT infrastructure.

HighLoad++

### HighLoad++ 2019 (Nov 7-8)

HighLoad is the biggest professional conference for highload system developers. This year it will be the 13th conference gathering over 2700 participants to cover various web-development issues.

Zabbix for sure will stand for monitoring, showing the usability and new opportunities.
