

What's New

This month Zabbix marks its 15th anniversary as a company! We've got the priceless experience and gathered the unique community around during these years. Thank you for sharing this journey with us! Feel free to [read the story](#) of how Zabbix software became one of the world's most demanded IT monitoring solutions.

Getting closer to the next Zabbix LTS release, [Zabbix 5.0.0beta1](#) version is out! [3.0.31rc1](#), [4.0.20rc1](#) and [4.4.8rc1](#) versions are also released.

We have translated the official [#Zabbix Demo video](#) into several different languages. Now the subtitles are available in Russian, Czech, and Japanese. Please [open the video](#) and click the CC button to choose the language.

Thank you, Zabbix Partners!

Thanks to the Zabbix Partnership network, our professional services are available everywhere in the world. Every Zabbix's partner makes its contribution to Zabbix's development and growth. Moreover, our partners are awesome - see yourself! Dear partners, we kindly thank you for all the Birthday wishes you send us! May there will be more milestones to reach together!

New Official Integrations Available

Zabbix + Zammad. Zammad is a free open source, a fully-featured web-based ticketing system for helpdesk or customer support. This guide describes how to integrate your Zabbix 5.0 installation with Zammad and provide instructions on setting up a media type, a user, and an action in Zabbix.

Zabbix + Clickhouse. ClickHouse is an open-source column-oriented DBMS for online analytical processing. Zabbix presents the template to monitor ClickHouse by Zabbix 5.0. Most of the metrics are collected in one go, thanks to Zabbix bulk data collection.

Zabbix + PagerDuty. PagerDuty is an incident management platform that helps teams detect and fix infrastructure problems quickly. The official template will help you stay on track of all monitoring activities and resolve each issue in the shortest possible way. Configure smart notifications with Zabbix that will be synchronized with PagerDuty

Zabbix + Elasticsearch. Elasticsearch is a distributed, RESTful search and analytics engine capable of addressing a growing number of use cases. The template monitors Elasticsearch by Zabbix and works with both standalone and cluster instances. The metrics are collected in one pass remotely using an HTTP agent.

Zabbix + Telegram. Telegram is a cloud-based instant messaging and voice over IP service. The official guide describes how to send notifications from Zabbix 4.4 to the Telegram messenger using Telegram Bot API and Zabbix webhook feature.

Join the Community ONLINE

WELCOME TO THE MEETUP

MeetUp Andina

We welcome the Spanish-speaking Zabbix Community to join the [online meetup](#), organized by the Zabbix Certified Partner in Colombia - [Imagunet](#).

This meetup will be mostly dedicated to the Zabbix 5.0 release and the practical usage of the Zabbix monitoring tool.

Alexei Vladishev will deliver the welcome speech, but after there will be speeches about the upcoming release as well as the use cases from the local companies that successfully use Zabbix to monitor their IT environment.

The full meetup agenda is coming soon.

Join Zabbix Webinars

The quarantine and isolation period is the best time to learn new things online. We appreciate your thirst for knowledge and work on the webinar agenda, so it would be as intense and useful as we can. We've added the new webinar about data visualization in Zabbix as well as started to hold webinars in Czech and Italian on a regular basis. And last but not least - webinars always was and will stay free. Welcome to explore different angles of Zabbix!

Apr 28, Communicating with Zabbix using API: create your first integration (EN/RU)

Apr 29, O mundo dos containers: monitoramento de Docker e Kubernetes com Zabbix (PT)

Apr 30, Migration to the latest release, avoiding common pitfalls (EN/RU)

Apr 30, Zabbix + Grafana (IT)

Apr 30, NEW: Visualización de datos con Zabbix (ES)

May 5, NEW: Data visualization with Zabbix (EN/RU)

May 5, Aktualizace na poslední verzi (CZ)

May 7, Instalace Zabbixu v 5 minutách (CZ)

May 7, Tuning di Zabbix per le migliori performance (IT)

May 14, Installazione di Zabbix (IT)

May 14, Introducción a Zabbix (ES)
