

## NEWSLETTER

**ZABBIX**

The Enterprise-class Monitoring Solution for everyone

## What's New

Zabbix 5.0.2 and 4.0.23rc1 versions are released and available for download.

Zabbix Meetup Online for Spanish-speaking community is [scheduled on July 30](#). The agenda of the event is already available. Check out the topics and register.

Zabbix 5.0 came with the list of significant and long-awaited improvements. For your convenience, we have filmed the [video](#), showing step-by-step the added and improved features.

## Zabbix authorized to be a CVE Numbering Authority

**ZABBIX**

ZABBIX AUTHORIZED TO BE A  
CVE NUMBERING AUTHORITY (CNA)

After completing several stages to strengthen security procedures, Zabbix proudly announces that it has joined the CVE Program to assign CVE IDs to vulnerabilities affecting Zabbix products and projects. The CVE program is the de facto international standard for identifying and naming cyber-security vulnerabilities. Zabbix, as monitoring software, sees this as an ability to strengthen our monitoring software and the ability to control the disclosure of vulnerability information.
