ZABBIX

The Enterprise-class Monitoring Solution for everyone

## What's New

Zabbix 4.0.21, 4.4.9, and 5.0.1 stable versions are released! Source file and appliances are also available for download.

Zabbix received the [Special Prize](#) in Management & Monitoring section of Interop Best of Show Award.

Zabbix Online Meetups cover the technical topics related to the 5.0 release. Watch the video recordings from the recent online events in [Russian](#) and [English](#).

Watch the [presentation](#), delivered at Zabbix Conference Benelux 2020 this March, which shows how Zabbix helped to satisfy special requirements in the Oil&Gas industry where it's common to have more than one industrial automation supplier across multiple production and processing facilities.

## New Official Integrations Available

**Zabbix + SIGNAL4.** When critical systems fail, SIGNAL4 is the fastest way to alert your staff, engineers, IT admins on call and 'in the field'. SIGNAL4 provides reliable notifications via mobile app push, text and voice calls with tracking, escalations and duty scheduling. Discover how to integrate with Zabbix 5.0.

**Zabbix + Microsoft IIS.** Internet Information Services is an extensible web server software created by Microsoft for use with the Windows NT family. IIS supports HTTP, HTTP/2, HTTPS, FTP, FTPS, SMTP and NNTP. We introduce the template to monitor IIS by Zabbix.

**Zabbix + Microsoft SQL.** Microsoft SQL Server is a relational database management system. As a database server, it is a software product with the primary function of storing and retrieving data as requested by other software applications—which may run either on the same computer or on another computer across a network. The template is developed for monitoring DBMS Microsoft SQL Server via ODBC.

**Zabbix + etcd.** Etcd is an open source distributed key-value store used to hold and manage the critical information that distributed systems need to keep running. Our team introduces template to monitor Etcd by Zabbix. Most of the metrics are collected in one go, thanks to Zabbix bulk data collection.
