

What's New

Zabbix 4.0.21rc1, 4.4.9rc1 and 5.0.1rc1 versions are out! Feel free to test the new release candidates yourself.

Zabbix named an April 2020 [Gartner Peer Insights Customers' Choice](#) for IT Infrastructure Monitoring Tools.

QNAP has added [support for Zabbix](#), which makes it possible now to transform network-attached storage into a centralized network management platform for multiple devices.

Zabbix 5.0 released, and there are many questions on it. Let's answer all questions you may have at a time. If you missed Zabbix 5.0 meetup, take a look to [presentations](#) and explore Zabbix 5.0 in detail.

Updated Training Program

With the 5.0 release, the updated training program has also arrived. What has been significantly improved? The training method! From now, Zabbix Certified Specialist (ZCS) and Zabbix Certified Professional (ZCP) courses are also available online. Moreover, both ZCS and ZCP courses became longer, so we can now deliver you a deeper practical knowledge of Zabbix. As it was before, training sessions are available in multiple languages.
